

Quilcene Weekly Update: 1.9.23

SMART Goal Setting With Your Students

By Maurice J. Elias, Edutopia

Goal setting is something we talk a lot about in education, whether it be goals for our whole school, goals for ourselves professionally, or goals for our students.

When doing so, we often speak about goals using the SMART acronym.

SMART stands for:

- Specific
- Measureable
- Attainable
- Relevant
- Time-Oriented

This week's article dives into how to take regular goals and turn them into SMART goals!

Academic Recognition

Congratulations to this week's Students of the Week, Amirrah Woods and Destiny Hack! Amirrah was nominated by her MS STEM teacher for continuously helping other students in class and Destiny was nominated by her Culinary Teacher for the awesome job she's done in the role of Kitchen Manager!
