

Quilcene Weekly Update: 4.17.23

Teaching & Learning

3 Simple Yet Powerful Ways to Build Relationships With Your Students

Use these interactive strategies to build strong relationships with middle and high school students without sacrificing teaching time.

By Jori Krudler, Edutopia

Building positive relationships with students is an area that Quilcene staff does really well in, partially because of our small class sizes, but also because of the people who make up our staff.

This week's article discusses why positive relationships in education are beyond important and also dives into three specific strategies teachers can do in class to help foster this:

- Attendance Check-ins
- Pause for Reflection
- Capture Closing Thoughts

Academic Recognition

Congratulations to this week's Students of the Week, Maya Dressler and Hunter Robinson. Maya was nominated for always bringing genuine kindness and generosity to class. Hunter was nominated by his culinary arts teacher for approaching every task with a level of enthusiasm and determination that is truly inspiring. Great job, Maya and Hunter!
